PROJECTS:-

Enabling Cloud Storage Auditing with Key-exposureResistance.

Environment :- HTML5, CSS, Bootstrap, React, Node JS and Material Design

Role :- UI Developer

Team Size:- 6

Project Description:-

Cloud storage auditing is viewed as an important service to verify the integrity of the data in the public cloud.

Current auditing protocols are all based on the assumption that the client's secret key for auditing secure. Providing security for public cloud information by using key-exposure resistance.

Responsibilities:-

- Analyze product design requirements and user stories.
- Translation of visual design into functional UI using HTML5, CSS and .Bootstrap.
- Design and Develop user interfaces that are responsive and cross browser compliant.
- Deliver consistent experience (UX) across the UIs.
- Develop and manage UI Components.
- Peer review and validation for coding standards.
- Post production support.
- Use GIT/GitHub tools for version control and release management by seniors.
